'Swine Flu' has been seen on the News and in the media recently and while I hope this may be controlled by the time you read this the following advice may be helpful:

- 1) Wash your hands as much as possible
- 2) If you cough or sneeze use a tissue!
- 3) Don't cough or sneeze directly into the air!
- 4) Dispose of your tissue carefully in a bin.
- 5) Wash your hands straight away after the above using a suitable hand wash.
- 6) If you suspect that you may be affected telephone your GP as soon as possible.
Follow 'latest' and any 'new' guidelines.
